

# EDGAR GARCIA PADILLA

## Software Developer

Guadalajara, Mexico | +52 333 157 1406 | edgarciafx@gmail.com | linkedin.com/in/edgarciafx | github.com/edgarciafx | edgarciafx.github.io

## PROFESSIONAL SUMMARY

Software developer with a background in VFX production and technical pipeline workflows. Experienced solving complex technical problems, debugging production issues, collaborating across teams, and delivering work in deadline-driven environments. Currently developing full-stack web applications using TypeScript, React, Next.js, Node.js, Bun, PostgreSQL, and modern cloud platforms. Interested in frontend and full-stack software engineering roles.

## TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, SQL

Frontend: React, Next.js, HTML, CSS, Tailwind CSS, TanStack Query

Backend: Node.js, Bun, Express, REST APIs, Authentication

Databases: PostgreSQL, MongoDB

DevOps & Tools: Git, GitHub, CI/CD, Railway, Testing

Other: Data Visualization, Workflow Automation, Production Pipelines

## SOFTWARE DEVELOPMENT FOCUS

Building full-stack web applications with TypeScript, React, Next.js, Node.js, Bun, PostgreSQL, and cloud deployment platforms. Developing skills in backend architecture, authentication, REST APIs, database design, testing, and CI/CD. Applying production pipeline experience to software engineering, workflow automation, and scalable application development.

## PROFESSIONAL EXPERIENCE

Digital Compositor (Contractor) | Ingenuity Studios Inc. | Oct 2021 - Oct 2024

- Worked within large-scale production pipelines to deliver high-volume client work under strict deadlines.
- Investigated and resolved technical workflow issues across complex production environments.
- Collaborated with artists, supervisors, and technical teams to maintain quality and operational efficiency.
- Managed complex problem-solving tasks involving CG integration, tracking, compositing, and asset workflows.
- Contributed to reliable delivery processes in a fast-paced, deadline-driven environment.

Postproduction Artist | La Covacha | Apr 2020 - Apr 2021

- Collaborated across departments in fast-paced postproduction environments.
- Worked with Nuke, After Effects, and DaVinci Resolve in technical workflows.
- Handled troubleshooting and iterative feedback while maintaining delivery quality.

Compositing Artist | MPC | Sep 2019 - Dec 2019

- Integrated CG and FX elements into production-ready commercial work.
- Contributed to collaborative production pipelines and quality-control processes.

VFX Generalist | LFT Studio | Dec 2017 - Jun 2018

- Delivered 2D and 3D advertising shots in deadline-driven environments.
- Supported compositing, rendering, and asset integration workflows.

## EDUCATION

Vancouver Film School - Diploma, 3D Animation and Visual Effects (2018-2019)

Universidad Marista - Bachelor's Degree, 3D Animation and Videogames (2014-2018)

UNIAT - Diploma, Digital Compositing in Nuke (2016)
